PREFACE.

This is the Eighty-Fifth consecutive volume of Geer's Hartford City Directory. From a small pamphlet of 71 pages and 1,625 names it has steadily increased each year, until now we present our patrons with a volume of 1,677 pages, containing over 93,000 individual names, 100 pages of Classified Business Directory, 148 pages of Household Directory Street-wise. Contrasting this Directory of to-day with the first one issued in 1838, the growth of Hartford will be realized. Then the census made the population of Hartford 6,909—to-day it is 146,463.

By the 1920 census of Hartford there was 1.77 population for every name that was that year in the Directory; multiplying the 82,747 names in the Hartford section by 1.77 gives the City of Hartford to-day a population of 146,463.

POPULATION OF THE THREE HARTFORDS.

Hartford	146,463
East Hartford	12,533
West Hartford	9,735
Total	168,730

For the 1,846 migrations from the city see page 812.

The INDEX OF CONTENTS, commencing on page 17, gives a complete reference to the diversified information contained in this Directory.

BUSINESS DIRECTORY.

The CLASSIFIED BUSINESS DIRECTORY, beginning on page 1249, gives 21,437 firms listed under 1,776 headings with 1,910 new firms; those that discontinued business numbered 1,921. The use of this BUYING and SELLING GUIDE will save you time and money, and bring you in touch at once with the right firm.

HOUSEHOLDERS' DIRECTORY.

The Householders' Directory, which has proven to be of great value, begins on page 1345, West Hartford on page 1471, and East Hartford on page 1652, and are arranged alphabetically street-wise, by the odd and even numbers, so that the householder or head of the family is easily traced on either side of the street.

STREET GUIDE.

The STREET GUIDE, beginning on page 33, is very complete, having in addition to the *numbers* at street corners, the location of all churches, schools, public halls, office buildings, hotels, great factories, public parks, and many of the prominent *business houses*.

MAPS.

New index Maps of the City of Hartford and the Town of West Hartford will be found opposite page 32; also map of Town of East Hartford opposite page 1600. All three are corrected right up to date.

ADVERTISING AND SERVICE.

The ADVERTISING PAGES show the wonderful resources of Hartford in the most attractive and concrete form possible, and tell "Who's Who" in the business life of the city, and showing that these Manufacturers and Merchants are convinced of the value of displaying their goods in the large SHOW WINDOW OF THE CITY DIRECTORY.

HALF-TONE PHOTOGRAPHS.

HALF-TONE PHOTOGRAPHS of 758 of our leading citizens we give this year for the twenty-second time, and 85 new faces are here introduced. This forms a most interesting feature of identification of any individual sought for in a CITY DIRECTORY, and in future years of great historical value.

PROMOTING CITY'S PROSPERITY.

A Chamber of Commerce most nearly approaches the ideal when it promotes only those projects which make for community betterment. It cannot depart from this standard without being in danger of following false gods and devious paths. Primarily such an organization exists to preach the gospel of united service. To do this requires education of the citizenship in community affairs. Yet the real purpose of a commercial body—and as such the word commerce indelibly defines a Chamber of Commerce—is to make the city it represents a better place in which to live and transact business. To bring more business to a city, to help in having that business conducted along improved and most efficient lines and to see that employer and employee make the most of their opportunities are indispensable aims of a Chamber of Commerce.

It is with these general principles in mind that the Hartford Chamber operates every year. Perforce, with these standards it cannot have a part in every movement which animates the citizenship. It must confine itself to broad and general principles. A "busy body" Chamber of Commerce would be a nuisance. A Chamber of Commerce should be commended for the things it does and also for the things it does not attempt to do. During the trying times for commerce and industry which followed the "halting" of business through which period it is hoped Hartford has passed, the Chamber of Commerce has been alert and active to bring to attention every means for accelerating business, realizing that by so doing it was promoting the prosperity and as a corollary the happiness of the community. In February the organization was represented at a conference of New England business men to give information as to how to advance the foreign and domestic commerce of this, part of the country and the facilities the government, through the Department of Commerce, was extending. This information was given in detail to every business house represented in the Hartford Chamber of Commerce.

STATISTICS.

Other steps in this connection as the preparation of articles for various publications, having circulation of at least a quarter of a million, setting forth Hartford's commercial advantages. Quite naturally this compilation took the form of insurance and banking statistics which attest the prosperity of the community. When it is realized that Hartford's one branch of business—insurance—brings to Hartford companies a million dollars a day in premium income the importance of the city stands without comparison for a city of its size. The insurance figures for 1921 compiled from official reports of the twenty-nine companies are impressive:

Capital	\$ 42,918,000.00
Assets	879,266,141.37
Liabilities	744,636,175.20
Net Surplus	110,079,966.17
Surplus to Policyholders	153,629,966.17
Paid Policyholders or Beneficiaries since Organization	2,180,028,100.26
Premium Income, 1921	338,255,548.49

Best evidence, perhaps, of the city's thrift and general prosperity may be cited its per capita savings bank deposits, which reach the exceedingly high average of \$588, a figure much in excess of the average the country over. Were no other standard available this fact alone would stamp Hartford as a community of dominating distinction.

Along more definite lines, perhaps, was the intervention of the Chamber of Commerce to save the city's retailers from increased fares on the so-called "Dinky" line and the successful opposition to the attempt to abandon the inter-urban cars entering the city from the East. These were direct and positive services which should receive the commendation of every retailer. On a larger scale was the Chamber of Commerce publicity which attracted representatives of the larger interests in banking, insurance and manufacturing to the conference with the Attorney General of the United States when the problem of returning the trolleys to the "New Haven" railroad along with its holdings in the Boston and Maine railroad.

When a general strike of railroad operatives seemed imminent last Autumn, the Chamber of Commerce secured the pledge of its members to place automobiles and trucks at public service should the safety and comfort of our people be threatened. This compilation, including name and carrying capacity of the vehicle, as well as the make of car and its owner, is on file ready at any time for instant use.

SPECIFIC.

The Chamber of Commerce has recorded its composite opinion on national legislation. It has favored the adoption of "American Valuation" plan for the new tariff bill. It has voiced its protest or made effective its advocacy of many measures. It has been a clearing house at all times for inquiries regarding possibilities for securing space for commercial or industrial activity in Hartford. It has maintained a "Solicitations Bureau" to provide information concerning the need and requirements of enterprises whose agents have sought contributions from Hartford citizens. It maintains a Collection Department to stimulate delinquent debtors. It has close connection with the Hartford Traffic Association through which problems of transportation by rail and water can be solved. It is the center, to which turn thousands of correspondents every year for all sorts of information regarding the city, these inquiries coming from every state in the Union and representing not a few of the countries of the Old World. In a word the Hartford Chamber of Commerce supplies service of every description. It sets before the world the facilities its membership provides by giving of money, thought and time to maintain an organization adequately representative of the Capital of Connecticut.

"THE GREATER HARTFORD"

"The Greater Hartford" is the hope of the coming year. This means not only a city greater in material resources but greater in spirit and determination to be and to be recognized as foremost among the communities of New England. "The Greater Hartford" means, perhaps, additional territory. With additional geographical space must come increased population and with increased population greater opportunities and responsibilities. A committee has been named, the purpose of which is "to investigate and report, with suitable recommendation, the possibilities of securing additional territory and the best means for making the recommendation effective." This means that neighbors, Hartfordites in all but physical location, will be invited to enter the home circle. Hartford deserves to grow in territory as well as in population. This idea, it is confidently believed, will become the reality of the near future.

DIRECTORY LIBRARY.

OUR LIBRARY OF DIRECTORIES contains more than 350 different City Directories. We maintain this reference Library for free consultation by the public. We send the Hartford Directory on exchange to all of these cities, and this for immediate reference secures to the people of those cities valuable information concerning Hartford.

EAST HARTFORD DIRECTORY, begins on page 1601, and has 5,697 names.

WEST HARTFORD is given as part of the regular Hartford names, owing to the contiguous geographical location.

This is the BUSINESS MAN'S DIRECTORY. It is made to save his time, patience and money, and for these three purposes we have most freely spent and generously given of our time, patience, and money, to attain these objects.

We heartily thank our business men for their substantial patronage, without whose aid we could not publish such a complete and up-to-date Directory.

ELIHU GEER SONS'

GUIDE TO STREETS, AVENUES, Etc.

HARTFORD, CONN.

Copyrighted 1922 by THE HARTFORD PRINTING COMPANY, Hartford, Conn.

The figures 1. 2. 3. 4. 5. 6. 7. 8. 9. 10 on the right of the names of each street indicate the wards in which the same are located,—the ward boundaries generally run in the center of streets.—See Table of Contents.

This Guide indicates at a glance the proximate locality of any required number on any street; for example, if you desire to know about where No. 800 Asylum street is located, this guide shows you that, being an even number, it will be found on the north side, and about mid-way between Sumner and Huntington streets.

The streets running north and south are numbered from the south excepting Wethersfield, Maple, Franklin, New Park and Evergreen avenues, Hopkins, Babcock, Columbia streets, Park terrace, Hillside and Washington; those running east and west are numbered from Main st., or from end of street pointing thereto, excepting North st.

Odd numbers on SOUTH and WEST sides, uniformly.

The names of all streets running north and south (except Main, Broad and Zion), change at Park river, and all east and west at crossing Main street.

INSURANCE OF FOURTH-CLASS MAIL.

Fees and conditions.—Fourth-class and domestic parcel post mail (*but no other*) may be insured against loss upon payment of a fee of 3 cents for value not exceeding \$5, 5 cents for value not exceeding \$25, or 10 cents for value not exceeding \$50, or 25 cents for value not exceeding \$100, in addition to the postage, both to be prepaid with stamps affixed. It may not be registered.

Such mail may be insured at any post office or station thereof, or by rural carriers.

Return receipts for insured parcels may be obtained by indorsing the parcels "Return receipt desired."

Indemnity for lost insured parcels is paid for the actual value; within the limit of insurance. When an article is so damaged as to render it wholly worthless, it is regarded as lost, provided it was packed and indorsed in accordance with the postal requirements.

PARCEL POST OR FOURTH-CLASS MAIL.

Fourth-class matter embraces that known as domestic parcel post mail, and includes merchandise, farm and factory products, seeds, cuttings, bulbs, roots, scions, and plants, books (including catalogs), miscellaneous printed matter weighing more than 4 pounds,

and all other mailable matter not embraced in the first, second, and third classes.

Extent and usefulness of Parcel Post.—The domestic parcel post offers a convenient, quick, and efficient means of transporting mailable parcels to any post office in the United States, or its possessions. The

service reaches more places than any other transportation agency. It brings producers and consumers into closer contact, thus opening the way to reducing the high cost of living. Special treatment and advantages are accorded to shipments of farm products. Low postage rates, based on the service rendered, are provided. The rates to nearby zones are particularly advantageous. Parcels may be insured against loss and may be sent C. O. D.

Rates of postage on fourth-class or parcel post matter—to be fully prepaid—unsealed—are as follows:

(a) Parcels weighing 4 ounces or less, except books, seeds, plants, etc., 1 cent for each ounce or fraction thereof, any distance.

(b) Parcels weighing 8 ounces or less containing books, seeds, cuttings, bulbs, roots, scions, and plants, 1 cent for each 2 ounces or fraction thereof, regardless of distance.

(c) Parcels weighing more than 8 ounces containing books, seeds, plants, etc., parcels of miscellaneous printed matter weighing more than a pound, and all other parcels of fourth-class matter weighing more than 4 ounces are chargeable, according to distance or zone, at the pound rates shown in the following table, a fraction of a pound being considered a full pound:

(d) Parcels subject to the pound rates, mailed for delivery within the first or second zone, are, when the distance by the shortest regular mail route from the office of origin to the office of delivery is 300 miles or more, chargeable with postage at the rate of 6 cents for the first pound and 2 cents for each additional pound, a fraction of a pound being computed as a full pound.

Stamps, Envelopes and Cards.

The use of Postage stamps was first authorized by act of Congress approved March 3, 1847, and the issue of 5¢ and 10¢ began on the 1st July following. Previous to this date postage was collected in money on each letter, prepayment being optional in all cases.

The 1847 and 1851 stamps are obsolete as well as all issued prior to 1861.

The denominations and descriptions of the present series of ordinary stamps are as follows:— ISSUED.

The 1 cent stamps are issued in books of 24 and 96; the 2 cent stamps are issued in books of 12, 24 and 48 each; 24 1 cent, 24 2 cent combined.

REGISTERED LETTERS.

Valuable letters should invariably be taken to the Post Office and registered. The registration fee to all places where letters can be registered, 10 cents.

All Post Offices are required to deliver within a radius of one mile letters bearing the Special Delivery 10 cent stamp.

By the latest official reports there are 58,020 Post Offices; 54,594 Money Order Offices; Postal Savings Banks, 12,158 in the United States.

STAMPED ENVELOPES.

First issue was in June, 1853, of 3 and 6 cents—present issue consists of the denominations of 1 cent, 2 cent, 3 cent, 4 cent, and 6 cent.

Foreign Mail Matter. Postage Rates.

CLASSIFICATION.

Articles for or from foreign countries (except Canada, Cuba, Mexico, Republic of Panama and the U. S. Postal Agency at Shanghai) are classified as "letters," "post cards," "printed matter," "commercial or business papers," and "samples of merchandise."

This is known as the "Postal Union" classification of mail matter. There is no provision in the Postal Union mails for merchandise other than samples. A package of merchandise sealed and prepaid in full at the letter rate is, however, transmitted in the Postal Union mails to destination as a "letter." The right of its entry into a foreign country is determined by the administration of the country of destination.

PROHIBITED ARTICLES. If mailed sealed against inspection, will not be delivered although they reach their destination.

NOTE.—Mail matter for Hawaii, Porto Rico, the Philippines, the island of Guam and Tutuila, the "Canal Zone," and the City of Shanghai, China, Virgin Islands (formerly Danish West Indies), is subject to the domestic rates and conditions.

CANADA, CUBA, MEXICO, AND PANAMA.

Articles of every kind or nature which are admitted to the domestic mails of the United States will be admitted under the same conditions to the mails for Canada, Cuba, Mexico, and the Republic of Panama except that commercial papers, prints and bona fide trade samples are transmissible in the regular mails at the postage rate and subject to the conditions applicable to those articles in Postal Union mails. **SEALED PACKAGES** other than letters in their usual and ordinary form, are unmailable to Canada, Cuba, Mexico, and the Republic of Panama.

PROHIBITED ARTICLES.

The transmission of the following articles is absolutely prohibited in the foreign mails under any circumstances, viz, publications which violate the copyright laws of the country of destination; packets, except single volumes of printed books for Mexico, Canada, Cuba, the Republic of Panama, Shanghai and Salvador, and second-class matter for Canada, Cuba, Mexico, the Republic of Panama and Shanghai, which exceed 4 pounds 8 ounces in weight; poisons, explosives inflammable substances; live or dead (not dried) animals; insects (except bees) and reptiles; fruits and vegetables which quickly decompose and substances which exhale a bad odor; lottery tickets or chronlers; all obscene or immoral articles, and all articles which may destroy or damage the mails or injure persons handling them, and letters containing coin, gold or silver substances, jewelry or precious articles. This prohibition against coin, etc., does not apply to Canada, Cuba, Mexico, the Republic of Panama, Shanghai or those countries whose legislation does not prohibit their circulation in their domestic mail.

RATES OF POSTAGE.

The rates of postage applicable to all foreign countries, other than those above mentioned, are as follows:

Cents.

Letters, for the first ounce or fraction of an ounce, . . .	5
For each additional ounce or fraction of an ounce, 3	
Single postal cards (including souvenir cards), each, 2	
Double postal cards (including souvenir cards), each, 4	
Printed matter of all kinds, for each 2 ounces or fraction of 2 ounces, . . .	1
Commercial papers for the first 10 ounces or less, . . .	5
And for each additional 2 ounces or fraction of 2 ounces, . . .	1

Samples of merchandise, for the first 4 ounces or less, 2
And for each additional 2 ounces or fraction of 2 ounces, . . . 1

Registration fee in addition to postage, . . . 10
Letters for England, Ireland, Scotland and Wales per ounce 2 cents.

The postal conventions do not define the term "letter," but it is held that a package upon which postage at the letter rate has been prepaid in full was intended by the sender to be sent as a letter; and when it does not contain prohibited articles is required to be considered and treated as a "letter." Consequently packages addressed to foreign countries, except Canada, Cuba, Mexico, and Republic of Panama, which are fully prepaid at the rate of postage applicable to letters for the countries to which the packages are addressed, are allowed to be forwarded by mail to their destinations, even though they contain articles of miscellaneous merchandise which are not sent as bona fide trade samples.

NOTE.—Articles, whether sealed or unsealed, which appear to contain dutiable matter on their arrival at the exchange post office of the country of destination, will be inspected by customs officers of that country, who will levy the proper customs duties upon any articles found to be dutiable under the laws of that country and not prohibited transmission in the mails.

PARCEL POST.

ADMISSIBLE MATTER.—Substantially all articles (except personal correspondence) admissible to the domestic mails of the United States may be sent, in unsealed packages, by "Parcel Post" to the following-named Countries (but to those countries only):

Parcels must not contain separately addressed packages.

Australia, Austria, Bahamas, Barbados, Belgium, Bermuda, Bolivia, Brazil, British Guiana, Chile, Colombia, Costa Rica, Virgin Islands, Denmark, Dominican Republic, Dutch Guiana, Ecuador, France, Great Britain, Greece, Guadeloupe, Guatemala, Hayti, Honduras (British), Honduras (Republic of), Hongkong, Italy, Jamaica, Japan, Leeward Islands, Liberia, Martinique, Mexico, Netherlands, New Zealand, Newfoundland, Nicaragua, Norway, Peru, Sweden, Salvador, Trinidad, including Tobago, Uruguay, Venezuela, Windward Islands.

Postage 12 cents a pound or fraction thereof prepaid in full. Limit of weight 11 lbs. Greatest length (except Columbia and Mexico) 3½ feet, and greatest length and girth combined, 5 feet. In Columbia and Mexico greatest length is 2 feet and girth is 4 feet.

Geer's Hartford City Directory,

SEPTEMBER 1922.

To Find a Name You Should Know How To Spell It!

ABBREVIATIONS AND EXPLANATIONS.

The business location of individuals engaged in business for themselves, is first mentioned in connection with their names, and then their place of residence; persons not thus engaged, but employed by others, are mentioned first as AT THE No. and street or AT THE company where employed, and then their place of residence.

* Signifies that only one partner of the firm named could be ascertained.

When two numbers are given in connection with one name, and only one street mentioned, the number first given is the place of business, and the second the residence, and both in the same street.
